Senate Bill No. 427 requires all water companies in the United States to do a Lead Service Line Inventory. This requires us to identify the service lines going to customer homes. As well as any parts of our facility and main lines.

These are the results of Konocti County Water District's 'Lead Service Line Inventory'. No lead was found in our system. Below are the results of our inspections of the service line materials. If you have any questions or would like us to update the listing for the customer line. Please contact us at 1-707-994-2561.

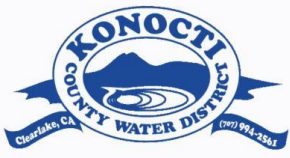

Note: the status of Non-Lead – Other has been used for homes installed after 1986, or do not have a customer line.

16080 12TH AVE [KCWD service line: Non-Lead - Plastic] [Customer line leaving meter box: Galvanized]
16238 12TH AVE [KCWD service line: Non-Lead - Plastic] [Customer line leaving meter box: Non-Lead - Plastic]
